### Summary

Results-driven Full Stack Developer with 4+ years of experience delivering scalable web applications for global clients, including DHL and the Netherlands government. Spearheaded the development of an AI-powered invoice processing system, reducing load times by 30% and improving data accuracy by 25%. Proficient in Vue.js, NestJS, and Docker, with a proven track record of optimizing performance, streamlining workflows, and mentoring teams to achieve project goals. Passionate about leveraging cutting-edge technologies to solve complex problems and drive business growth.

### Professional Experience

#### Frontend Developer (Vue.js / Next.js)

**AI Doc Builder**, Remote (Toronto, Canada), Feb 2024 – September,2025

- Led the development of an AI-based invoice processing system, utilizing Vue/Nuxt, NextJS, and Docker.
- Delivered tailored solutions for clients like the Netherlands government and DHL.
- Managed complex OCR engine data from scanned invoices and integrated AI logic for processing.
- Improved application performance, reducing load times by 30% for large invoice files.
- Implemented best practices and conducted thorough code reviews, resulting in improved code quality and maintainability.

#### Full stack JavaScript Developer (Vue / NestJS)

**Gain Solutions**, Mirpur-12, Dhaka. Dec 2022 - Jan,2024

- Built and maintained complex SaaS platforms including **ERP systems, eCommerce sites, recruitment tools and POS systems** using Vue.js (frontend) and Nest.js (backend).
- Refactored and modularized legacy frontend code using OOP principles, advanced filtering, and reusable components — reducing code redundancy by 40%, resolving critical runtime issues, and improving overall team productivity through scalable architecture.
- Delivered real-time data visualization features using Chart.js, Google Charts, and D3.js, enhancing user insights and decision-making across multiple business dashboards.

#### Frontend Developer (Nuxt.js)

**Nextive Solutions**, Karwan Bazar, Dhaka. August 2021- Nov,2022

- Created user-friendly and responsive LMS using Vue.js, Nuxt.js, Vuetify, Vue CLI and others.
- Integrated RESTful APIs to streamline data flow, reducing data retrieval times by 20% and enhancing application performance.
- Mentored and coached a team of 6-7 intern developers, resulting in a 15% improvement in team productivity and code quality.

#### Jr. Frontend Developer (Vue.js / Nuxt.js)

**Developer Experience Hub**, Remote, May,2021- August,2021

- Designed and developed web applications using Vue.js and Nuxt.js, achieving a 98% mobile responsiveness score and improving user engagement by 25%.

- Worked with RESTful APIs to integrate data from various sources and ensure smooth functionality.

## Education

### Cox's Bazar International University | 2021 (Incomplete)

Bachelor's of Science in Computer Science

### Cox's Bazar Polytechnic Institute| 2012

Diploma Engineering (Computer Science)

## Technical Skills
